

"THE MCKEOWN FAMILY" contribution to Richard Haass

ON BEHALF OF FRANKIE MCKEOWN MURDERED JULY 1972

Hi Richard I believe you will be trying to find a solution for the situation concerning the HET in the North Of Ireland,

I am the oldest of six ,we were children (five boys and a girl) at the time of our father Frankie McKeown s Murder,in July 1972,my mothers life destroyed and the rest of us have different stories of how our lives fell apart.

This month we were at a meeting with the policing board in regards to the H.E.T.and their investigation into British state murders to show we will not tolerate any form of investigation process that we believe is deliberately flawed. The only way for any sort of "chance" for justice to happen is to get civilians involved in the investigation process. People who have lost loved ones can not be fooled, while people who get paid to investigate ,(and I include " ALL OTHERS "in this statement) can be compromised! Now what I have just talked about happens , not just in the North of Ireland, but all aver the world and in all different forms, rape, child abuse ,murder, domestic violence, drugs .Drugs in our own community, the police and councilors know who these dealers are, and still nothing is done, why because it keeps them in pay, and the population in fear and under control, wake up people. Watch"The Invisible War " a documentary about sexual abuse in the American forces.

They are asking for civilian investigative procedures because they know the system is deliberately flawed .

Civilians,(family members of murdered loved ones) need to be put in positions of power to have any fighting chance against this corruption we have in the North of Ireland.
