

Time for Truth

RELATIVES FOR
JUSTICE

A Thaoisigh, agus British Prime Minister,

We are writing to you as relatives bereaved during the conflict to seek your assurances that our human rights as victims will no longer be disregarded or denied.

As you are aware the legacy of our conflict has not been resolved. The peace process has repeatedly failed to deliver on our rights to truth, justice and accountability.

In 2014 with the signing of the Stormont House Agreement we had hope that at last, we would see human rights compliant investigations, a truth recovery process, proper archiving of lived experiences and an examination of themes and patterns. And we hoped to see important statements of acknowledgement from all actors to the conflict.

On March 18th 2020 the British Secretary of State ignored the wishes of the bereaved and wider society when he unilaterally broke this promise to all victims, affected by all actors to the conflict. Brandon Lewis totally disregarded over 17,000 submissions to the NIO consultation calling for the full implementation of the above legacy mechanisms.

We are further dismayed at attempts to secure an amnesty for British State forces and their agents. Recent comments by the British Secretary of State that he is committed to a form of the Overseas Operations Bill to the island of Ireland are an attempt to justify and continue State impunity. No amnesty can be countenanced. Not for any actor to the conflict.

We the below signed wish to state that the Stormont House Agreement was a compromise, however it offered a human rights pathway to addressing our rights as citizens and as bereaved relatives. This would address the legacy of State impunity and independently investigate all actors equally.

We urge both of you to immediately turn your attention to this matter and fulfil the commitment in the New Decade New Approach document that the Stormont House Agreement be implemented in full without further prevarication or delay.

Is Sinne Le Meas,

Time for Truth
